Waste Control Group Submits Clean Air Law

A proposed uniform air pollution control ordinance which its sponsors claim would be more effective than that recommended in the Interstate Air Pollution Study was submitted Tuesday for the Illinois-Missouri metropolitan area by the Industrial Waste Control Council.

The regulations were submitted to the East-West Gateway Coordinating Council which is now studying data for preparation of its own recommendations for an area-wide air pollution control law. The council expects to make a report by Dec. 15, based on testimony received in a recent series of public hearings and the Interstate Air Pollution Study.

Donald Cairns, president of the Waste Control Council and plant engineer of the blast furnace department of the Granite City Steel Co., said the proposed program would reduce some of the major sources of air pollution from 75% to 99% and will require many companies in the area "to spend many millions of dollars to increase and update their emission control facilities."

Cairns said the terms and values of the proposed ordinance are based on the most current knowledge and the latest technology in air pollution/abatement which representatives of the Waste Control Council presented during the Gateway Council hearings in September and October provided the framework for the clean air program recommended by the Industrial Council, Cairns said.

They were developed, he added, after extensive engineering and scientific research by the council's technical staff and consultation with air pollution experts throughout the metropolitan area.

Some of the regulations are recommending are different than those proposed in the Interstate study, Cairns said. "However, the results would be the same provide for clean air in the metropolitan area."

He said that while the proposal contains two administrative provisions, one for Missouri and one for Illinois, both essentially are the same. This was necessary because of different laws in each state, he explained.

Collision in Alley

An auto parked in the alley behind the Tri-City Grocery, 429 Broadway, Venice, was damaged Tuesday night when it was struck by a car driven by John Moran, 208 Orville avenue, Venice police office. The parked car was owned by Gerald Slugg, 503 Filmore street.

Emergency Room Gives the Answer

The emergency room at St. Elizabeth Hospital is called upon many times to answer puzzling questions, and the most recent perplexing one came from a distraught housewife.

She telephoned the hospital to ask what should be done with a leg of lamb roast after an oven thermometer had broken and the mercury had run over the meat.

The emergency room nurse reviewed the question to a doctor and then relayed the answer to the housewife—"It would be necessary to throw the meat away."

4 Meals a Day Under Study at Hospital

Authorities at St. Elizabeth Hospital are to confer next week with the doctor staff to determine if a four-meals-a-day program should be started for patients next January.

Sister Mary Thomas, administrator, said the procedure would require considerable revamping of kitchen schedules and timing for medications.

The hospital's food manager has been visiting other hospitals to get details. Instead of three meals, the four-meals-a-day plan would include rolls and coffee early in the morning, a continental breakfast around 10 or 10:30 a.m., and the main meal would be in the middle afternoon with a small snack served to patients in the evening.

Sister Thomas also announced the intensive care unit should be ready in January. Four nurses still are attending special classes at Belleville Junior College on intensive care and coronary units.

James Van Sant is New Vice-President at GSI

James A. Van Sant, director of public relations of General Steel Industries, Inc., at Granite City since 1964, was elected a corporate vice-president of the company Tuesday with the title of vice-president-public relations.

The promotion was announced by W. Ashley Gray Jr., GSI president, following a board of directors meeting in New York at which the company also declared a fourth-quarter dividend of 30 cents per share on common stock.

Van Sant, who lives in St. Louis, is a graduate of Trinity College at Hartford, Conn., and holds a master's degree from Washington University in St. Louis. He also attended the University of London, England, and the Harvard University Graduate School of Business Administration.

JAMES VAN SANT

The dividend will be payable Dec. 30 to stockholders of record Dec. 16. Gray announced.

Nameoki Twp. to Fine Roadside Trash Hurlers

Charles Hanks, Nameoki township highway commissioner, said today a crackdown is being undertaken on persons responsible for dumping trash along township roads.

Penalties for unauthorized depositing of refuse and unwanted items along the highways and roads can result in fines up to \$100 for each offense. "Dumping trash is illegal and we intend to prosecute any person found doing so," Hanks stated.

The township highway official said he has received complaints of increased dumping along Car-gill road, off Pontoon road, and on the road from Highway 162 to Stratford lane.

Weed Fire Extinguished

A weed fire was reported at 10:10 a.m. Wednesday at 3080 Circle drive. It was out by 10:30 a.m.

Group Insurance In Schools Begins

Policies governing administration of group medical-hospital insurance for certificated employees were adopted Monday night by the Granite City school board.

The insurance went into effect Monday, with the district paying the cost of individual coverage, and will extend to Sept. 14 for all who complete the 1966-67 school year.

Those resigning during the year will be terminated. Coverage will continue for those on leave as follows: maternity, duration of leave, not exceeding one year; sick leave, additional year if illness continues; military leave, no coverage; and sabbatical leave, duration of leave.

The board authorized the Prudential Co. to include existing pregnancies for all these having existing health and accident policies with this clause.

A delegation from American of Teachers Local 743 headed by President Harry Lane was present. The local had been consulting and was in general agreement with the action. Remaining insurance procedural questions were to be discussed by the group with Business Manager Victor Anderson.

Three Resignations

Resignations were accepted from Mrs. Betty Russo, a teacher on leave of absence, and Mrs. Dolores Friedrich, 2328 Miracle avenue, a Cook County high school cafeteria employee. Mrs. Kathleen Wonneberg, 3210 Withers drive, a Logan second grade teacher, will leave at the end of the fall term Jan. 20 or possibly sooner; her husband is now employed in Carbondale.

A 30-day leave of absence was granted Miss Jean Worrell, Ferguson, Mo., Marshall grade school physical education teacher.

With teachers already granted influenza shots at school district expense, it was decided to provide shots also for non-certified personnel.

The board scheduled meetings for tonight, Nov. 20 and Dec. 12, omitting its Nov. 23 meeting. A letter from Rev. Alfred Buis praising GCIS football coaches

Madison Man Pleads Guilty, Asks Probation

He was under indictment on the charge of raping a 12-year-old Madison girl last June 17. Testimony was taken in mitigation, and Associate Judge Fred P. Schuman ordered a probation hearing for Dec. 16.

SKIN CANCERS CAN BE COMPLETELY CURED

About 18% of all cancers are skin cancers. They are not contagious. But, early diagnosis is important, so watch out for the danger signals.

A "mole" that has grown in size, looks irritated, bleeds, or is changing color is a frequent offender, particularly if it is located where it is subject to friction. Wart-like growths, often due to excessive sunlight exposure or x-rays, are suspect.

Eczema-like patches on the breast may be skin cancer. Do not be afraid to check with a physician. Removal is painless. Skin cancer is curable, if detected in early.

Encephalitis Reports Unfounded, Doctors Say
Reports that two cases of encephalitis, inflammation of the brain, developed in Granite City this week most likely are unfounded, according to state medical authorities and local physicians. Tests are being taken of a boy, seven, in isolation at St. Elizabeth Hospital, and of a woman in a St. Louis hospital. The woman's doctor said a condition was caused by a case of the mumps, and there is nothing serious about it. A state physician said true encephalitis is spread by mosquitoes, and this is the wrong season for it. Similar symptoms are produced from an abdominal tract virus, he said, and in early stages, it is difficult to differentiate between true encephalitis, the tract virus and meningitis. No reports of the disease have been filed with the state.

Reach Settlement in \$1.5 Million Suit

Settlement has been reached and terms for payment agreed upon in a \$1.5 million lawsuit filed in circuit court early in 1965 in behalf of a Granite City boy who suffered injuries from a truck accident, it was reported Wednesday.

The circuit clerk's office said that the suit, filed Feb. 18, 1965, by Robert McCarter in behalf of his son, Victor Eugene McCarter, was announced in court as having been settled, but that no final decree disposing of the case had yet been entered.

Attorneys representing the boy and his father declined to discuss the amount of the settlement and said all parties involved had agreed not to discuss the case in any way. An attorney confirmed, however, that the case had been settled and arrangements for payments made.

The suit originally was directed against Dr. Joe Pineda of Granite City, but later was amended to include other defendants, among them Dr. Lawrence Anjoberg of St. Louis, the Ritter Corp. of Rochester, N. Y., manufacturer of electrical surgical equipment allegedly used during the operation and the Sisters of Divine Providence who operate St. Elizabeth Hospital where the operation was performed.

The complaint alleged that in the circumcision operation, in which the boy's parents were assured there was little danger, the boy was burned and underwent removal surgery. The suit stipulated Dr. Anjoberg came into the case after the boy suffered the burns at consultation.

When you love your work, it shows.

And we love our work. So much that we couldn't bear to stop with the looking-slick split grille ever to grace a Wide-Trac. (Or any other car, for that matter.)

We went ahead and made the windshield wipers disappear. The car not only looks cleaner, but the wipers are less subject to icing and freezing, too.

Then we got rid of the vast windows on all Grand Prix hardtops. We replaced them with nifty monograms and a flow-through ventilation system.

We even designed a rather unique hood-mounted tachometer option that's available on all Pontiacs. As are our other new options like stereo tape and stereo radio.

And, of course, our handsome interiors have to be seen to be believed.

All Pontiacs have standard safety features that include a dual master cylinder brake system with warning light, outside rear-view mirror, and GM's energy absorbing steering column.

Isn't it time you decided to see your Pontiac dealer? If you love our work the way we do, it's the least you can do.

Visitor Procedure is Simplified at Alton State
A simplified procedure for visiting patients has been adopted by Alton State Hospital, Dr. Abraham Simon, superintendent, said today.

The new policy allows a visitor to go directly to the ward housing the patient for a pass, rather than registering at the information desk. Visitors' passes previously were issued by a clerk in the administration building.

**General Steel Gets
\$46 Million Contract**
A contract for construction of 400 new subway cars for the New York City Transit Authority was awarded Tuesday to General Steel Industries, Inc.
The cars will be manufactured by GSI's St. Louis Car division. Production of axle assemblies is expected to be assigned to the General Steel Industries plant in Granite City, a spokesman said.
The contract, awarded on the basis of bids opened Oct. 27, is subject to approval of the Board of Estimate of New York and the Federal government. Half of the \$46,172,061 total cost is to be paid by the city of New York and half by the Federal government.
As low bidder, the local firm set the price for each car at \$115,000. In addition, the bid price included \$161.01 for labor, material and power for track testing the cars prior to acceptance by the Transit Authority.
The cars will be distinguished by a streamlined end including a much larger train identification sign. Built of molded fiber glass, the end will be raked back ten degrees in contrast to the box perpendicular end on existing cars in the New York City rapid transit fleet.

With problems being encountered in operation of boilers at Granite City high school, it was decided to spend \$132 to place a fuel oil additive in No. 5 oil there during the year. If it proves helpful, the practice will be extended to other schools. Minor boiler problems also were reported at Nameoki and Maryville grade schools.
The Blair Co. was authorized to install 2x12x12-inch U. S. Gymnasium acoustical absorbers on the beam ceiling of the Parkway grade school gymnasium for \$127 a unit. The number to be used will depend on a design to be furnished for approval by the school district. If this proves insufficient, acoustical materials may be added to walls there later.
Other bid awards were: office supplies, 200 reams of colored mimeograph paper, \$214 total, Ditto, Inc.; duplicating supplies, Panama Beaver Co. \$1461, Tri-angle Typewriter \$580, Franklin \$135, Ditto \$18 and A. Students to Use New Cafeteria at GCHS Next Week

It is planned to open the new Granite City high school cafeteria to students next Monday, and new serving equipment will be used at a Granite City park sports award banquet there that night.
Status of the new cafeteria building, in which seven classrooms were placed in use this fall, was reviewed by the school board Monday night.
During the Christmas-New Year's holiday period, sealer will be removed from terrazzo flooring in the new cafeteria to enable stains to be removed. New sealer then will be applied. Cost will be borne by the contractor.
Action was deferred on provision of water service for Grigsby junior high school, pending a study of legal implications.
Better Fuel Additive
With problems being encountered in operation of boilers at Granite City high school, it was decided to spend \$132 to place a fuel oil additive in No. 5 oil there during the year. If it proves helpful, the practice will be extended to other schools. Minor boiler problems also were reported at Nameoki and Maryville grade schools.

Selling used vocational shop equipment, the board allocated two welders, a bar folder and a power hacksaw to Segal Tool & Machinery for a total of \$256 and a combination machine to Wilton L. Adams for \$20.
Art Prints, Light Fixtures
Completion of purchases started last year under the U. S. Arts and Humanities Act was authorized. With the schools matching an additional \$112 grant this year, art prints will be provided for schools not now having them.
Fluorescent lamp fixtures costing \$3086 were ordered from the Arnold Hauness Co. for Mitchell and Stallings grade school, Central junior high and Granite City high school. Boiler brick costing \$115 was ordered from Nooter Boiler Corp.
Bills paid totaled \$47,843 in the educational fund, \$19,227 building

GC Steel Co. Program to Make it 'First' in Area

The Granite City Steel Co. is among the most aggressive sales promotion effort in the company's history, presented highlights of the company's expansion and modernization program at a dinner meeting for about 150 customers in the Colony Hotel in Clayton, Mo., Tuesday night.
The caravan arrived in St. Louis shortly before the dinner session after spending two days on the road to publicize the expansion of the Granite City Steel Co. through present construction of a \$140 million basic oxygen furnace plant and computerized hot strip rolling mill.
Scale models and oil paintings of the new facilities were displayed. Other customers were entertained at a "Caravan" dinner last night at the St. Clair Country Club in Belleville, a and

others are to attend a similar program tonight at the Bel-Air East Hotel.
Nicholas P. Veeder, chairman of the board and president, told the group, "Granite City Steel is moving up in the steel industry. Our 1965 to 1967 construction will make us more important, a stronger and larger supplier of flat rolled carbon steel—the number one raw material for most of you."
Improved Quality
Veeder said the company's "new facilities are directed at improving product quality, enabling us to supply additional markets and expanding our production and shipments capacity. They can do a better job for our customers and, in so doing, provide competitive advantage at Granite City Steel."

SIU's Millionth Book At Lovejoy Library

A worn 1858 travel book containing 78 hand-colored lithographs of the Mississippi River Valley, has become the "millionth book" at Southern Illinois University-Southern campus.
The book, "Das Illustrierte Mississippi Valley" (The Illustrated Mississippi Valley) is a gift of Mrs. Albert F. Kaeser of Highland, longtime supporter of libraries and a friend of SIU. It will be housed in the Lovejoy Library.
Formal presentation of the volume was made to SIU President Doyte W. Morris Tuesday night at a banquet on the Carbondale campus sponsored by SIU's Mississippi Valley Investigations research team and the SIU Friends of the Library Organization. A collection of original early Mississippi Valley maps dating back to the 18th century also was unveiled at the dinner. The donor, Philip D. Sang, of River Forest, was an honored guest.

Disability Claim Change In Social Security Law

Ralph Brasher, district manager of the social security office in East St. Louis, said today disability payments under the social security law are no longer limited to persons with permanent disabilities. Brasher said he feared many people were not yet aware of a change in the social security law or physical impairment that is totally disabling and is expected to continue for as long as 12 months meets the requirements of the definition of disability under the new law.

Previously beneficiaries were paid if a disability was expected to continue for a long and indefinite time or result in death. Brasher pointed out that for many many disability claims may be disallowed because the impairment, although severe, was not permanent, but expected to be of long and continued duration. Airman Victor Morrison Leaves for Vietnam

Airman First Class Victor A. Morrison Jr., left Travis Air Force Base, Calif., last night for Cam Ranh Bay, Vietnam, where he has been assigned as an electronic communications technician.

He and his wife, the former Miss Donna Smith of Granite City, and son, Victor III, were concluding a 30-day leave here when Morrison was notified by telegram to report at Hamilton AFB, Calif., for two days' special embarkation training.

A January 1962 graduate of Granite City high school, Airman Morrison enlisted in the Air Force just a few days later. He is the son of Mr. and Mrs. Victor Morrison, 4120 Melrose avenue. His wife's parents, with whom she will reside while Morrison is overseas, are Mr. and Mrs. George Smith, 2321 Miracle avenue.

While on furlough here from Patrick AFB, Fla., the serviceman and his family visited his grandparents, Mr. and Mrs. Ralph McKinley at Eldon, Ill., and Mrs. Albert Johnson of DuQuoin, Ill.

A farewell dinner party was given at the Morrison home Sunday with Mrs. Sonia Schaff of St. Louis, among the guests.

FALSE TEETH

That Loosen Need Not Embarrass

Many westerners of false teeth suffer embarrassment because their plates slip, slip or wobble at just the time they don't want to be seen. Moose Lodge Annual Ball To Be Held Saturday

Edward Chastain, entertainment chairman, announced today that Moose Lodge 272 will hold its annual ball for members and guests, Saturday evening at the Lodge. This annual affair is being sponsored by the Fellowship degree. Dancing will be from 9 p.m. to 1 a.m. There will be an intermission period at which time the Women of the Moose Chapter 247 will present an entertainment program.

Salvation Army Needs Old Costume Jewelry

Unused and broken costume jewelry can be turned into decorative little gift boxes guaranteed to delight elderly patients in nursing homes or hospitals who are visited each Christmas by the Salvation Army's League of Mercy. Persons wishing to contribute old costume jewelry to the Christmas project are being asked to leave their donation at the Salvation Army headquarters, 1421 Nineteenth street.

Members of the local Salvation Army league now are making a variety of handmade gifts for distribution during the coming holiday season. Stones and settings from unwanted costume jewelry are removed, cleaned and polished and used to decorate cigar boxes and other containers to hold small gift items and later serve as oddment boxes. Lt. Donald Wisor, Salvation Army commander, explained.

Chester L. Baker Re-elected Head Of Plan Group

Chester L. Baker, president of the Tri-City Printing Co. of Granite City was re-elected president of Illinois Manufacturers Association at a meeting of the board of directors at the Rose Bowl Tuesday afternoon.

C. Baker of the Edwardsville National Bank Trust Co. was elected vice-president, and Clarence Dunn, manager of the Wood River Township Chamber of Commerce was re-elected secretary and treasurer. Baker succeeds Clifford M. Peake, formerly manager of the Belleville Chamber of Commerce who has moved out of the area.

The new officers were chosen unanimously on a slate brought in by the nominating committee headed by Harold R. Fischer of Granite City.

Baker announced the appointment of B. L. Hantle of the Illinois Power Co. of Belleville as a member of the board to succeed E. G. Schmitt who retired recently from his office with the power company. Baker then appointed Schmitt as a board member at large and named Donald Koppenhaver, manager of the Alton District Manufacturers Association, as a member of the board to succeed Thomas W. Butler of Alton.

Committee appointments announced by Baker included: Membership—Koppenhaver and Shelton Griffith of Alton, Chris Heiligenstein and Lind Field of Belleville, Irwin B. Maurer and Elmer Allen of Collinsville, Nick Barbieri and James Reed of East St. Louis, Robert Coultas and Arnold Cassens of Edwardsville, A. H. Seebold and Freeman Wolfe of Granite City and Clarence Dunn and Carroll Marchant of Wood River.

Promotion Material Committee—Griffin, Howard Colquitt, Frank Karr, Charles Richard, Norman Viner, Lee Bunker, E. A. Karandjef, Al Pauli and Ferd Gower. Program Committee—Hantle, George Berry, Becker, Ray Bricker, Les Salem, William Horstman, Earl Jukes, Ralph Morris, G. W. Farde and Schmitt.

A representative of the Tri-City Port Authority is to be named later. Samuel Lerman and Joseph G. Schwartz of St. Louis who have contracted to purchase the International Shoe Co. plant at Hartford, and Jack Periman of Houston, Texas, who is associated with Lerman and Schwartz in developing the plant into an industrial center and warehousing complex, were guests at the meeting and were introduced.

They outlined facilities available at the plant, which is located on 73 acres of land. Mecca Questions Power Of East-West Gateway

The future scope of the East-West Gateway Coordinating Council was discussed at a dinner meeting of the Metro-East Chamber of Commerce Association Monday night at the Sunset Hill Holiday Inn. Some association members questioned the authority of the council and future trends in regard to expansion of the council jurisdiction of all phases of U. S. government expenditures by municipalities in the area. The council has been restricted to highway programs. An attempt will be made to procure a member of the original planning council to clarify matters at the association's January meeting. No definite problems were pinpointed in postal service during the meeting after some chambers complained of delays in postal deliveries. No action was deemed necessary. "It was reported that a new 'book store' is to be operated on the Southwestern campus of Southern Illinois University would be in competition with downtown business districts, Earl Jukes, association president, commented after conferring with SIU President Delyte Morris. The store will contain other school supplies, clothing and various materials primarily for students, though it will be open to outsiders. Jukes quoted Morris as saying, 'The university president is to meet on the matter with the Edwardsville C. of C.' A nominating committee was appointed and will nominate officers at the January meeting.

5 GC Youths Enlist At Local Station

Five Granite City youths have enlisted in the U.S. Army at the Army Recruiting Station, 1349 Niedringhaus avenue, St. James Maddox, recruiter, said today.

Marion G. Sharp, 19, son of Mr. and Mrs. Harry G. Sharp, 2817 Hemlock avenue, and Larry J. Hoffek, 19, son of Mr. and Mrs. Randolph E. Hoffek, 2509 Lynch avenue, enlisted under the "Buddy plan" and have been assigned to Fort Leonard Wood, Mo., for basic training.

Both are local high school graduates and were attending SIU-SW Campus. After basic training they will attend a school in finance procedures and then a course in pay disbursing at the Army Finance Center at Fort Benjamin Harrison, Ind. Bernard W. Mikulicz, son of Mr. and Mrs. John M. Mikulicz, 1347 (r) Madison avenue, also is at Fort Leonard Wood for basic training and later will be given special training in electronics. Ronald H. McBride, son of Mr. and Mrs. Francis McBride, 3909 Franklin avenue, is training at Fort Polk, La., and will receive

Partney Proposes 2 Methods to Reduce Traffic Accidents in GC by 25%

Granite City could cut its mounting traffic accident rate by approximately one-fourth with either one-way traffic or with parking limited to one side on narrow streets, Mayor Partney said this week.

The mayor said a detailed study of a 12-month traffic accident pattern made from Oct. 1, 1965, to Oct. 1, 1966, shows that 49% of the 1530 accidents occurred in the middle of blocks and nearly half of those crashes were caused by moving autos striking parked cars.

Mayor Partney pointed out flight training for a warrant officer rating.

William D. Cook, son of Mr. and Mrs. Dwight Cook sr., Rural Route One, is taking basic training at Fort Leonard Wood prior to assignment to special training in auto mechanics. Sgr. Maddox advised the Press-Record of an error in an enlistment announcement last week. He said Robert Tilley, 18, is not the brother of Mrs. James L. Ollar.

monetary loss in the 1530 traffic accidents totaled \$1,600,000, and they accounted for 550 injuries and three deaths in the city.

"With many of our streets only 33 feet wide, many of those 352 accidents involving parked cars are caused by motorists being forced to dodge in and out where cars are parked on both sides of a street."

Arithmetic Gives Answer. "The parked autos occupy 16 feet of a 28-foot street, allowing 12 feet for travel. A minimum of 20 feet is required for safe travel on a two-way street."

"We must remove parking on one side or limit the travel to one way. The safe, free flow of traffic must come first in our thinking, and an overall program with expert opinion is needed. The citizens of Granite City should demand this service of their aldermen."

In his appeal this week for citizens to join him in calling for council reconsideration on hiring a traffic engineer, the mayor noted a one-way street system was recommended by the Citizens' Traffic Commission.

"The following aldermen voted

against the engineered one-way system: Nomm, Basarich, Barto, siak, Boyd, Robertson, Poulos and Green.

"Your mayor would have proceeded with the one-way street program, but Aldermen Boyd and Poulos brought court proceedings concerning the validity of the passing of the ordinance," Partney stated.

Face 8 Major Tasks He added that eight major tasks have yet to be accomplished to develop a good traffic engineering program for the city. The eight steps he outlined are:

1. Evaluate all on-street parking control.
2. Recommend proper off-street parking facilities.
3. Recommend and bring forth a comprehensive traffic ordinance.

4. Encourage a proper enforcement program for all traffic laws and controls.
5. Initiate a sign modernization program.
6. Initiate a signal modernization program.

7. Consider undertaking a comprehensive street improvement program.
8. Continue the general traffic engineering program that has been started.

control work yet to be accomplished, it is apparent that every effort for further cooperative work must be put forth.

Full Cooperation Needed "The Citizens' Traffic Control Commission and the aldermanic Traffic committee must have the cooperation of your elected city council to carry out a sound traffic engineering program."

Also, co-operation is needed from the citizens and your city government in promoting projects which yet must be undertaken and in supporting these changes which have been made to date.

"The city council should weigh the entire picture rather than look at only selected spots when evaluating and deciding upon a recommended plan of action. "One case in point is that of the one-way street system in which only a very small segment

of the community has expressed opposition. The business community and the majority of the general citizenry have indicated approval of this plan," the mayor noted.

"I welcome all citizens to attend council meetings on the first, third and fourth Monday of each month to see your government in action."

Two squads of cheerleaders, with a total of 37 years of experience, will lead the Venice Red Devil fans for the 1966-67 basketball season. They were chosen at the end of the 1965-66 school year.

The varsity cheerleaders are Glenda Brown, a senior, daughter of Mr. and Mrs. William Brown, 584 Filmore avenue; Janice Hayden, a junior, daughter of Mr. and Mrs. M. E. Hayden, 812 Third street, Venice; Patricia Sittin, a junior, daughter of Mr. and Mrs. J. G. L. Sittin, 621 Fourth street; Kathy Daniels, a junior, daughter of Mr. and Mrs. Marcellus Daniels, 531 Jefferson avenue; and Cynthia Bosworth, a junior, daughter of Mr. and Mrs. Calvin Bosworth, 623 Lincoln avenue.

Junior Varsity

On the junior varsity squad are Joan Pickens, a junior, daughter of Mr. and Mrs. Clell Pickens, 611 Jefferson avenue; Margie McGarranah, a sophomore, daughter of Mr. and Mrs. William McGarranah, 1226 Oriole street; Linda Presswood, a sophomore, granddaughter of decorated in red and white, the Mr. and Mrs. William Cole, 217 Hampden street; and Karen Devany, a sophomore, daughter of Mr. and Mrs. Henry Devany, 525 Jefferson avenue.

The girls were chosen for their ability, leadership, stage personality, character and preparation.

Scholarship is essential as they must maintain a 3.0 average to remain on the squad.

During the summer both squads attended cheerleading camps in Syracuse, Ind., from June 12 to 17, and the junior varsity attended camp at the Du Quoin state fairgrounds June 26 to 30.

Experience Needed

Cynthia Bosworth, Glenda Brown and Pat Sittin lead the group for most years in cheerleading, each having seven, followed with five by Joan Pickens and Janice Hayden and two by Karen Devany and Linda Presswood. This is the first year for Kathy Daniels and Margie McGarranah. Cynthia Bosworth spent three years as a mascot when she was in grade school.

Cheerleading practices are held on Tuesdays and Thursdays under the supervision of Mrs. Annetta Ohlendorf, faculty sponsor and girls physical education teacher.

The cheerleaders sponsored a pep parade and bon fire last street; Linda Presswood, a Thursday night. Autos were decorated in red and white, the school colors. After the parade through Venice, the group met on the athletic field for a cheering session.

Student Council Meet

Eleven Student Council members, with faculty sponsor Ronalda Ganschmizet, attended a dis-

trict convention last Saturday at Alton senior high school.

Attending were James Ochoa, Barbara Kutz, Joan Pickens, Donna Dollar, Sharon Maurer, Margie McGarranah, Karen Devany, Marilyn Caruso, Kathy Scaturro, Sharon Parker and Susie Stern.

A first class honor rating was awarded the 1966 Venetian in the 46th All American Yearbook Critical Service of the National Scholastic Press Association.

More than 1000 student yearbooks from high schools all over the nation are judged by NSPA in groups divided by enrollment. They are judged in all areas of production from content through photography, writing and layout. NSPA headquarters are at the University of Minnesota in Minneapolis. Previously this fall, the same book received an "A" score from the National School Yearbook Association in Memphis.

There was an omission from the honor roll for the first six weeks which was published last week. Kathy Scaturro, a freshman, had a 1.53 average.

RENOVATED CHANCEL AT St. Peter United Church of Christ, to be used for services for the first time on Sunday, being inspected by Rev. Robert J. Baumann, pastor. It features a new altar, lectern, pulpit, stained glass window and organ.

St. Peter Church to Unveil New Chancel on Sunday

The newly renovated sanctuary of St. Peter United Church of Christ, 2101 Cleveland blvd., will be used for worship services for the first time on Sunday, Rev. Robert J. Baumann, pastor, announced.

It features a new altar, lectern, pulpit and a large stained glass window. A new organ, the gift of Walter A. Brummer of Granite City, has yet to be installed. The console has arrived at the church, but the pipes, to be set on either side, have yet to be delivered.

The altar, lectern and pulpit are memorials and were purchased from the Ossitt Church Furniture Co. of Janesville, Wis. The ornate, ornamental screen was redesigned and placed against the chancel wall.

The new window is based on ancient window art, using new techniques and materials. All of the glass is from Germany and the design and work were conducted by a young artist named Olzewsky, who inherited his studio from his father, an old world artist.

In a field of blue, the window, which retains the Gothic contour, has a floral border symbolizing nature. The left lancet shows the hand of God, the middle one the cross and crown of Christ and the right one the dove of the Holy Spirit. In all, it symbolizes the Holy Trinity.

The colorful features of the altar, lectern and pulpit window are particularly prominent in the setting sun when the chancel lights are turned on.

Much of the work of the chancel renovation program has been done by members of the church, Rev. Baumann pointed out. It has been under way since Easter, and since then, services were held in the church hall.

Board Chairman, National Association of Investment Clubs

Q. I read your column with interest but I must take exception to your advice to a 46-year-old man to cancel his high-quality \$25,000 insurance policy and buy a much less expensive term policy and invest the difference in a growth mutual fund or stock program.

This is a beguiling approach but the pitfall is that he must rigidly discipline himself to actually making the investments, he must follow his program to small odd amounts, he must make his investments on a regular basis, and he must reinvest all dividends, interest and all investments as they mature.

And he will have lost protection against disability. I cannot understand how you could advise this man to throw away all future earnings from his policy and place them in a hypothetical savings program which is not guaranteed.

I have no quarrel with mutual funds and Monthly Investment Plans, but think they should augment insurance.

Thank you for your well-thought-out demurral to my advice. However, I am sticking by my guns because I believe this man would be better off with a term insurance policy and a solid investment program.

While I am a strong believer in life insurance, I believe it serves its function best as insurance—not as a savings program. The man who was the subject of the column has reached a stage in life where his family obligations are well taken care of; moreover, he has demonstrated his ability to invest wisely.

Average Stock Gain
A recent University of Chicago study shows that the average stock on the New York Stock Exchange, with appreciation and dividend return, has yielded an average of 9% compounded annually since 1900. This is an average performance; an individual could select stocks rather badly and, nevertheless, average 9%.

While a guaranteed return is a comforting thing to have, the man discussed in the column already has a fairly good guaranteed income in social security and other accumulated assets and should be in no danger in striving to increase his return.

Have you a question about investing? Mr. O'Hara, editor of the monthly magazine, "Better Investing," and one of the nation's recognized authorities, will write to T. E. O'Hara, National Association of Investment Clubs, Dept. 3, Box 1068, Detroit, Michigan 48202, on a self-addressed, stamped, self-addressed envelope.

Census Profitable But Need Not Delay Redistricting of Wards
Simple arithmetic indicates that it would be profitable for the city of Granite City to obtain a special census at a cost of \$7805.

Proof of the population gain that has taken place in the 1960s would qualify the municipality for \$18,000 to \$20,000 more yearly from the state motor fuel tax fund for maintenance and improvement of local traffic arteries.

It would be unfortunate, however, if the time required for such a census resulted in delaying ward redistricting beyond the early February deadline. New boundaries need to be approved two months before the next city election in order to go into effect with the April 1967 balloting.

The wisest course might be to order the special census for motor fuel tax purposes but to proceed in the meantime with redistricting, utilizing the block-by-block population estimates provided by the Southwestern Illinois Metropolitan Area Planning Commission. There is no reason to doubt the accuracy of these estimates.

If this plan is followed, the city will "have its cake and eat it, too"—increased money for streets without delaying ward redistricting.

Only cautions need to be kept in mind are to draw no more words than can be legally substantiated—probably seven rather than the present eight—and to keep them as similar as possible to present wards (with population equalized) so that all or most aldermen can cast favorable votes.

For redistricting to become a reality by next February, it is obvious that a majority of the council must become convinced that proposed lines do not give unfair advantage to present or potential aldermanic candidates. A reasonable compromise would be far better than failure, accelerated factionalism and attempts to make political hay by placing the blame on various council members.

Steadily Decreasing Quad-City Role in Junior College Program

When talk of a junior college district began, a single location in the neighborhood of Route 111 and Interstate Route 270 was described as the most likely and logical by the steering committee chairman. It was noted that the Quad-Cities and the Alton area are the major centers of the Quad-Cities have no college facilities within the present residential area.

Since then there has been a steady increase in emphasis on Alton as the core of the proposed district, and an accompanying decrease in local confidence in the planning. A Lewis and Clark name has been chosen, and the proposed boundaries have been expanded to include Jersey county, most of Calhoun county, about half of Macoupin county and parts of Greene, Montgomery, Bond and St. Clair counties. Meanwhile,

talk of Southern Illinois University possibly discontinuing its Alton center has arisen.

The recommendation included in the final feasibility report lists separate junior college campuses near Alton, near Granite City and between Collinsville and Highland, all in Madison county. This splintering would reduce the completeness of facilities at any one location and, of course, subject to the wishes of a seven-member board that would be chosen in a second election, if creation of the district is approved by voters.

A study of the district map and of the large territory included north of Madison county indicates that one or the other of the two southernmost sites (Granite City and Collinsville-Highland) might well be dropped, or that a fourth or fifth campus might be added to serve the more than half of the territory outside Madison county.

The Quad-City area would pay a fourth of the property tax portion of the proposed district's revenue. Whether this community is likely to have a fourth of the vote in the decisions that would be made will be one of the major points considered by local voters when the balloting takes place this winter.

Dominant Voice for GOP in Illinois Legislature

Immensity of the Republican surge in the 1966 election is shown by the probable 99-73 majority in the Illinois House and 39-19 edge in the Illinois Senate. Never before in this state has a party won so many seats through district elections, although Democrats elected 118 representatives in the all-Illinois voting two years ago.

The trend also was felt in other states. Republicans increased the number of states in which they control both legislative houses from six to 17; Democrats control 23, the two parties share nine states, and Nebraska has a unicameral non-partisan legislature.

In Illinois, Sen. W. Russell Arrington, Evans-ton, Senate president pro-tem, has emerged as one of the major voices of state legislative matters. Hopefully, Rep. Ralph T. Smith, Alton, a former Quad-City man, will become Speaker of the House, giving Madison county a strong voice in the state capital hierarchy.

The impact of this month's voting is certain to be felt for some time to come. House terms are for two years and, under a court reapportionment order, all 58 Illinois senators were elected for four-year terms. New redistricting will be considered in 1970.

Tourism Makes Dollars and Sense

The expanding local interest in tourism is justified by State Business and Economic Development Department study showing that 9.4% of all Illinois retail business stems from travelers.

Those from out of state spent \$1.2 billion last year, yielding \$84 million in state taxes, and those within the state spent \$800 million for a whopping \$2 billion total, one-fifth of the national figure.

On an average day, 8% of Americans are away from home on trips outside their commuting zone, traveling for business, pleasure or personal affairs. Over half of these are vacation- and recreation-bound tourists, and nine out of ten travel by automobile.

With \$2 billion in non-residents visiting this state in 1965, Illinois obviously has major attractions and is doing more all the time to further improve and publicize them.

Aided by Quad-City and regional brochures and committees, Illinois tourism promotion is succeeding; travel business in this state has risen 7% faster in the last decade than business generally. Local organizations can help by playing host to more district and state meetings than in the past.

Habits are stepping stones; some lead up, others down.

The Diplomatic Pouch

Election Day, Vietnamese Style

WASHINGTON, D.C. The following letter has been answered by the Department of State:

During a telecast of "Face the Nation," I was surprised to hear a Department of State official refer repeatedly to the "democratic" government of South Vietnam.

Since this government is not elected by the people, how can it be called a democratic government? When were free elections held in South Vietnam?

W.B.W., Kansas City, Mo.

Dear Mrs. W.: Local elections were carried out successfully in South Vietnam on May 30, 1965, despite some opposition from the Communist Viet Cong.

Complete figures show that 3.4 million persons voted out of a total of 4.7 million who had registered.

The total electorate, all Vietnamese men over 18, is estimated at 5.1 million. This includes persons in areas under the control of the Viet Cong who were unable to register.

Throughout the country, 401 candidates contested the 481 seats on the municipal and provincial councils. All professions were represented among the winners.

There was no evidence of pressure or coercion upon the voters by the authorities.

Local issues dominated the campaigning. The elected council members will supervise local administration with authority to investigate and make recommendations on the implementation of government programs, the distribution of funds and the quality of services rendered to the people by local officials.

Through the national government under Air Vice-Marshal Nguyen Cao Ky did not come to power by means of elections, the results of a number of political, economic and religious groups.

It consists of both civilian and military figures. The results of the May 1965 elections were respected by the Ky government when it took office in mid-June 1965.

The Law Serves You

Law Outlines Duties of Guardian

(A Public Service of the Tri-City parents are deceased or unable, and Illinois Bar Associations.)

What are the legal responsibilities of a guardian of a minor child? Under Illinois law, there are two types of guardians—one is the guardian of the person of a minor child and the guardian of the minor's estate and property. They may be one and the same person.

According to the Illinois State Bar Association, the guardian of the estate is charged by law with the care, management and investment of the child's estate. Income and profits from the estate must be applied as authorized by the court for the comfort, support and education of the child.

Traffic Arteries, New Wards, Cultural Events, Economic Growth, Area Clean-Up, Citizen Interest, Fluoridation Among the Principal Needs Here

(Press-Record editorial analysis) highway network on retail marketing. What improvements are most needed in the Quad-Cities? There could be many answers. One compilation has been made by the Tri-Cities Chamber of Commerce in picking its committee goals for the coming year.

The Chamber is the first to admit that most community progress stems from efforts of not one but many groups, from the work of thousands of individuals, and that no one group knows entirely what is best for this area.

But its list of projects provides food for thought, especially since the Chamber is a group devoted solely and full-time to civic betterment activities.

Its objectives in various fields include the following:

Transportation: Study railroad crossings, including duration of traffic delays, and assist local government in upgrading crossing road conditions.

Strive for implementation of arterial street plan, one-way traffic and railroad overpass project presented by the Chamber to Granite City aldermen.

Expedite highway improvements, including south Nameki road widening.

Assist Venice in obtaining Broadway railroad crossing auto underpass.

Strive for completion of Maryville road widening and extension.

Assist Bi-State Development Agency and Tri-City Regional Port District in developing harbor-shipping facilities.

Seek a speed-up in building Federal Aid Route 351.

Work for transit improvements.

Study effect of the overall maintenance.

Encourage continued improvement in construction and industrial building.

Promote this area's established businesses and industries.

Tourism and convention promotion.

Attract tourism and conventions, including placement of area brochures and maps in productive locations.

Encourage local organizations to use restaurant and motel facilities here.

Retail-commercial development:

Encourage good housekeeping in local business districts, including study of an incentive program for school dropouts and also for retraining of the unemployed in new skills.

Seek teaching emphasis on free enterprise.

Seek better public understanding of local education programs.

Encourage the best possible utilization of public school property for educational and recreational purposes.

Southwestern Illinois University liaison:

Assist SIU officials with any problems in building their new campus.

Attract new SIU-SW administrators and teachers to live in the Quad-Cities.

Advance the SIU-SW cultural and economic impact on this community.

Encourage development of local business districts.

Industrial development:

Cooperate with all metropolitan area development and organizations and promote new and diversified industry compatible with this area.

Promote sound planning and work to create the best possible "climate" for industrial ex-

Granite high school team defeated the Troy high school team, 72-15.

The Troy team arrived early and was allowed an hour's practice to become acquainted with the gymnasium and to get limbered up. Granite City made numerous fouls at the beginning of the game, and Troy was in the lead for a minute or two.

The local boys could not resist their fast, snappy passing attack and were a bit excited during the first half of the game, but drew far ahead in the second half.

LIKES GOP GAINS BUT SAYS IT DEFEATED HIM
To the Editor:

A great victory has been won. I have answered the prayers of many.

Much has been accomplished in evening up the checks and balances of government in Washington, and in retaining two fine public servants in our state and county education system, Ray Pags and Wilbur R. L. Trimpie. Both are capable and sincere men.

Charles H. Percy is the most outstanding man elected to the U. S. Senate since the election of Everett McKinley Dirksen. He is experienced in state and foreign matters and is my choice for president in 1968, with Ronald Reagan for vice-president, or vice versa.

In the 1968 primary in Illinois we will need to eliminate those of both parties who do not work for the public interest.

In the Madison county Republican organization we have some who were standing behind the door when brains were passed out; this is from the precinct level up to the county executive board. They know all the names and biographies of the top candidates defeated.

Political apathy, bigotry and jealousy, combined with the financial strength of the opposing party, much of it taxpayers' money, brought defeat.

The campaign managers made many mistakes, including double-party sample ballots and brochures that left off the picture, names and biographies of the candidates, as well as the names of the candidates.

This was plain stupidity. We need to get the Republican two-party system? See you in the third or independent party in 1968.

Too old to weep but too highly insulted to laugh and be

happy—the state senate candidate the Republican leader themselves defeated.

I wonder how many of your readers are aware of the fine work the Lions club of Madison is doing through their eyeglasses program?

To those who are unfamiliar with this facet of their activities, this program is designed to furnish financial aid to buy glasses for people who otherwise would be unable to get them.

Recently, my efforts to help such a person—a little girl whose family was unable to afford even an eye examination—I learned of this program.

THE QUICK-SIZE '67 CHEVELLE

Big cars ride nice, small cars handle easy. Quick-Size cars do both.

The new 1967 Chevelle is a little less than a full-size car. A little less long, a little less heavy. A little less effort to tuck into tight parking places. Yet Chevelle's Full Coil suspension serves up a full-size ride: incredibly smooth, never harsh. Almost luxurious.

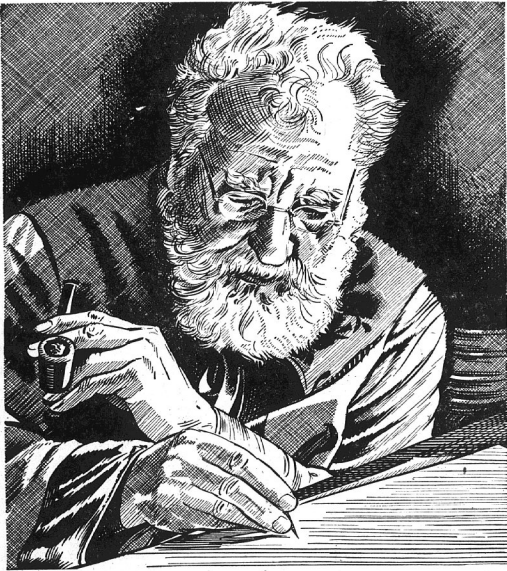

The 1967 Chevelle is long on new features: quicker starting; pushbutton seat belts; dual master cylinder brake system with warning light; GM-developed energy-absorbing steering column; stereo tape available; many more.

So be greedy. Enjoy the agility of a small car without giving up the comforts of a big one. Enjoy a Chevelle.

FOR '67, EVERYTHING NEW THAT COULD HAPPEN... HAPPENED NOW AT YOUR CHEVROLET DEALER'S.

New Concours Wagon gives you the look of rich wood.

Mr. Bell liked to make things better...

After Alexander Graham Bell invented the telephone in 1876, he did not rest on his laurels. He helped form the National Geographic Society, developed the basic method of making phonograph records on wax discs and pioneered a method of locating icebergs by detecting echoes from them. He made suggestions and contributions that helped give us air conditioning and the iron lung. For 46 years after inventing the telephone, he lived a vigorous and creative life.

Southwestern Bell likes to make things better, too...

Six short years ago, we did not offer the Princess® telephone, Home Interphone, Wide Area Telephone Service, Centrex service, Data-Phone data communications service or Panel Phone. There was no electronic artificial larynx, no automatic dialer and no Speakerphone. Today, these new items help us provide the best telephone service in the world. But we want to make it better. That's our legacy from Mr. Bell.

LISTINGS WANTED

If your home is really your castle, you probably don't need a professional's help to sell it.

On second thought, maybe you do.

You couldn't sell your castle as efficiently as a Realtor®. Because that's his job, to be an expert.

You see, a Realtor is a professional in real estate who subscribes to a strict Code of Ethics as a member of the local board and of the National Association of Real Estate Boards.

He's trained to evaluate your castle (his job), to recommend the right price, and show it only to interested buyers.

So whether you're selling a three-room bungalow or a 90-room chateau, see a Realtor. Look for this seal, which only he may display.
